GreenPoint

GreenPoint is a web-based application designed to encourage and reward environmentally friendly behavior by allowing users to deposit waste, earn points, and redeem rewards. The system supports both regular users and administrators, and features a responsive, modern UI.

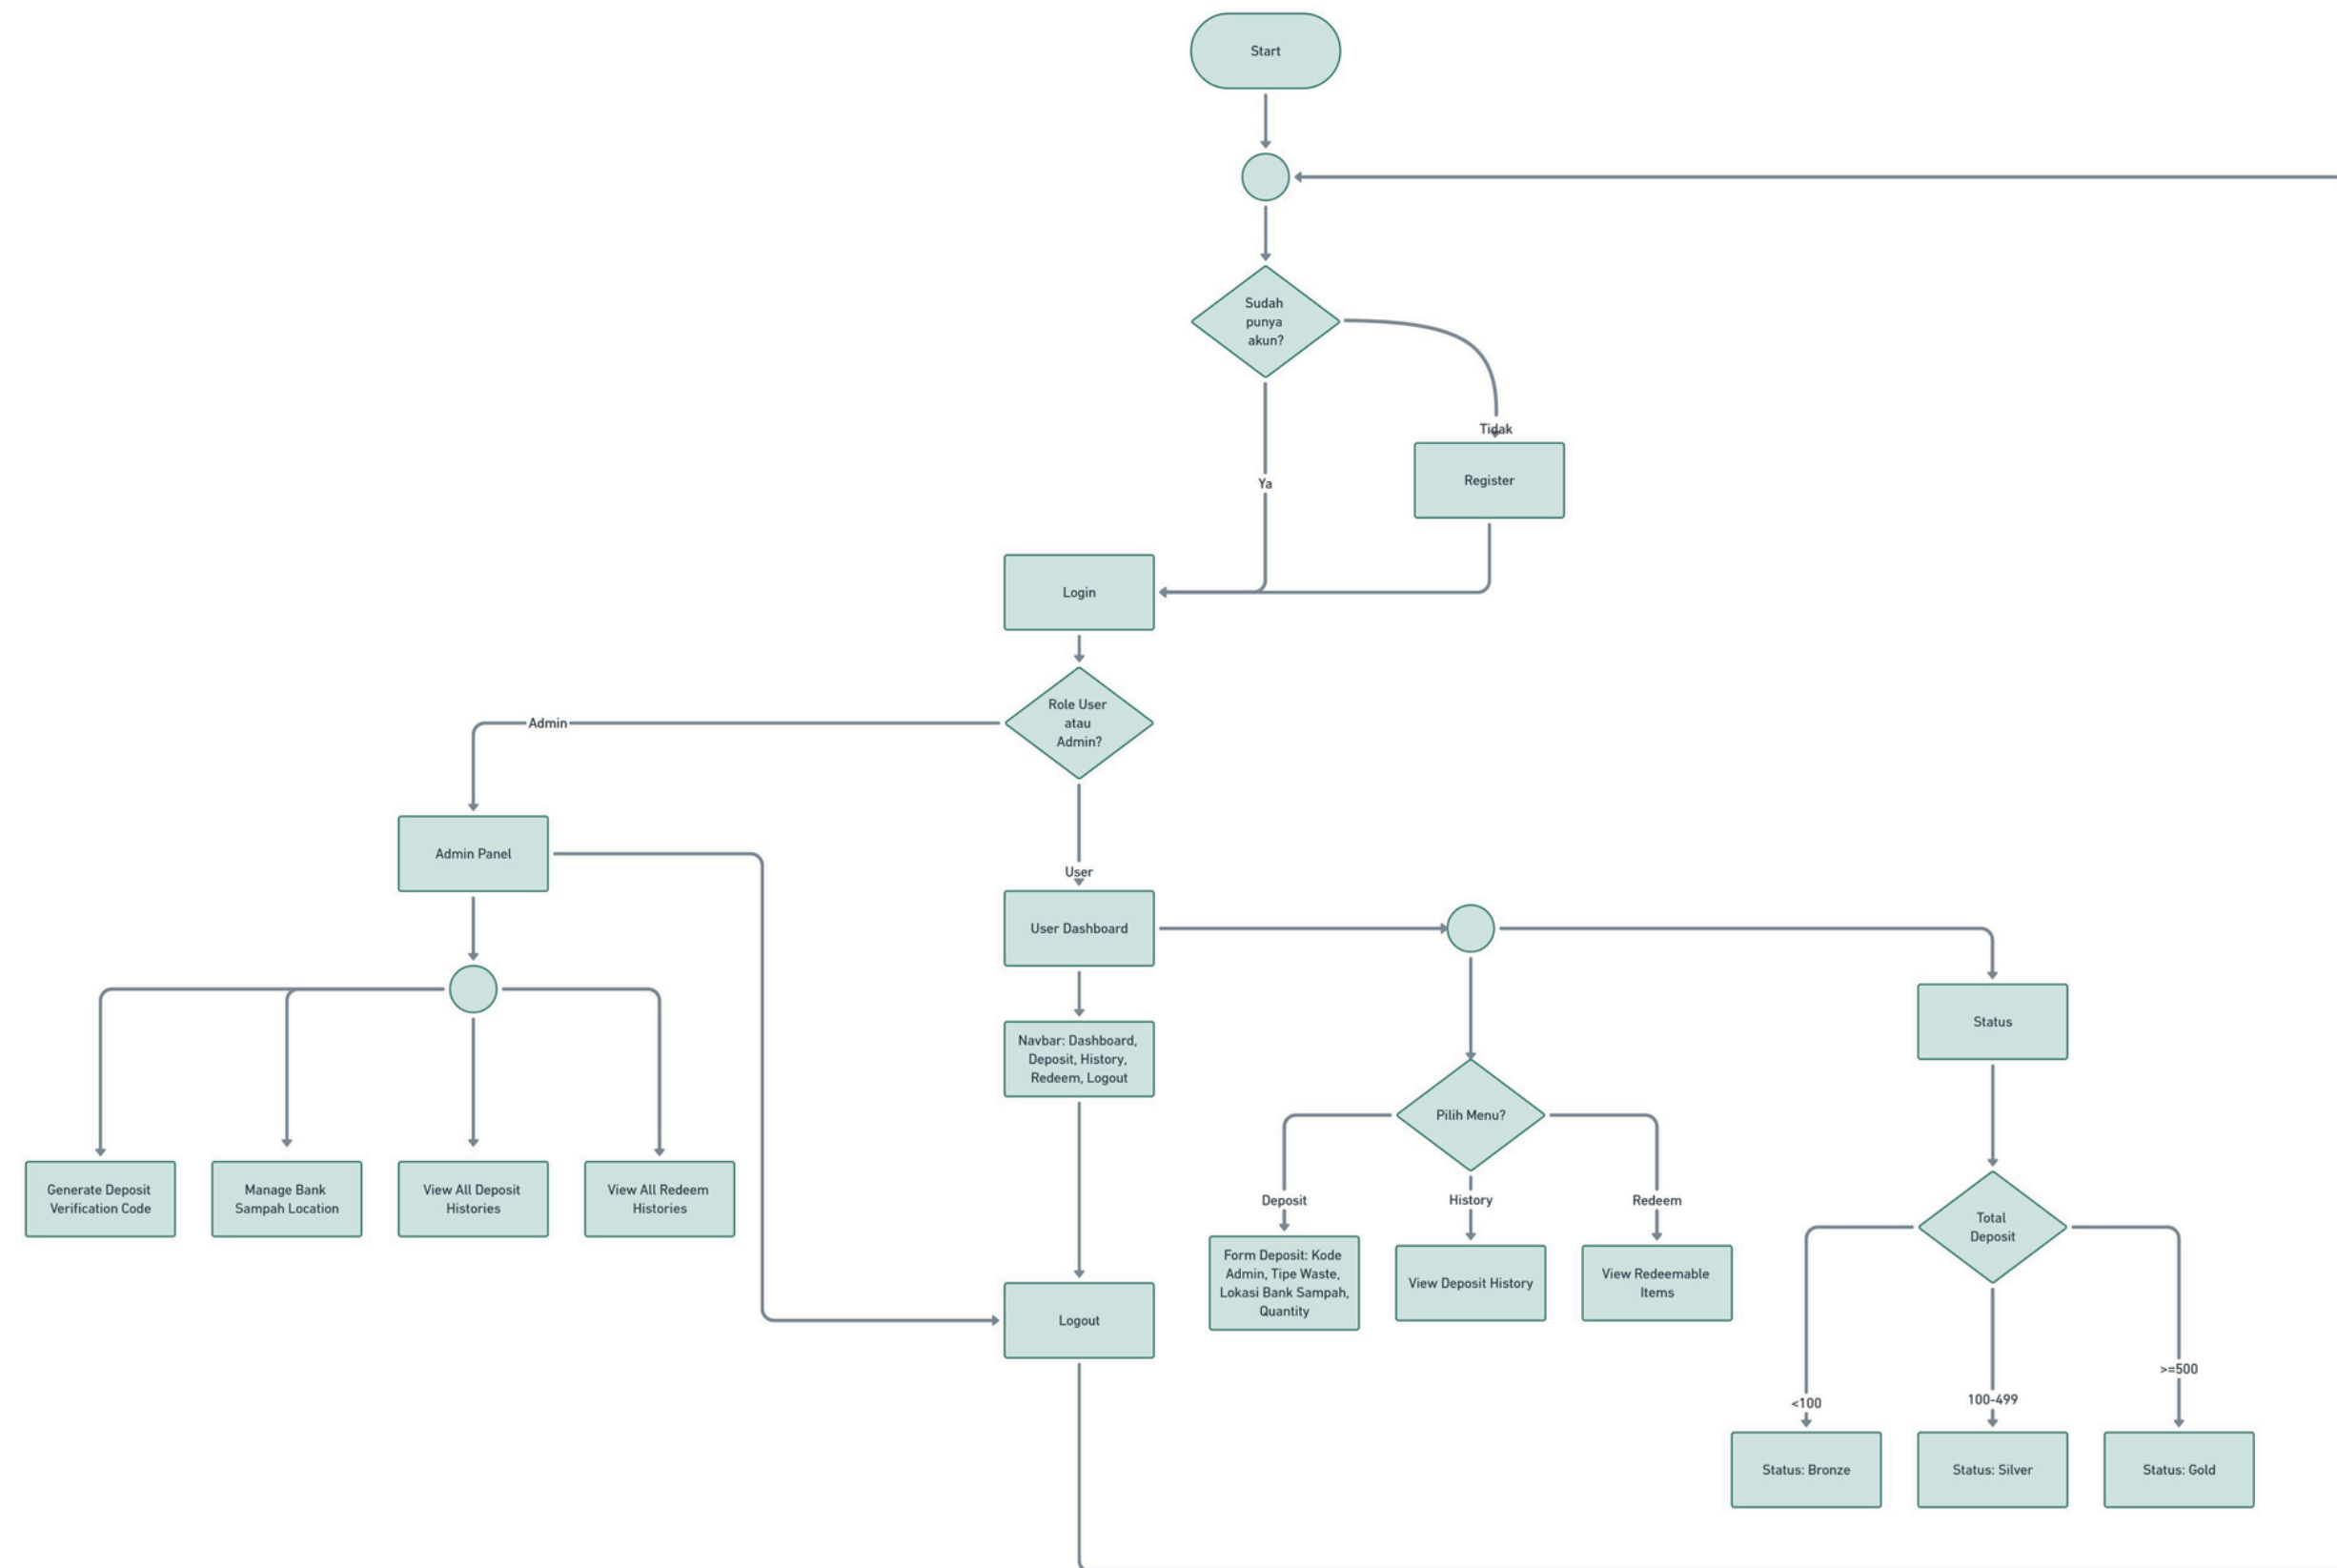

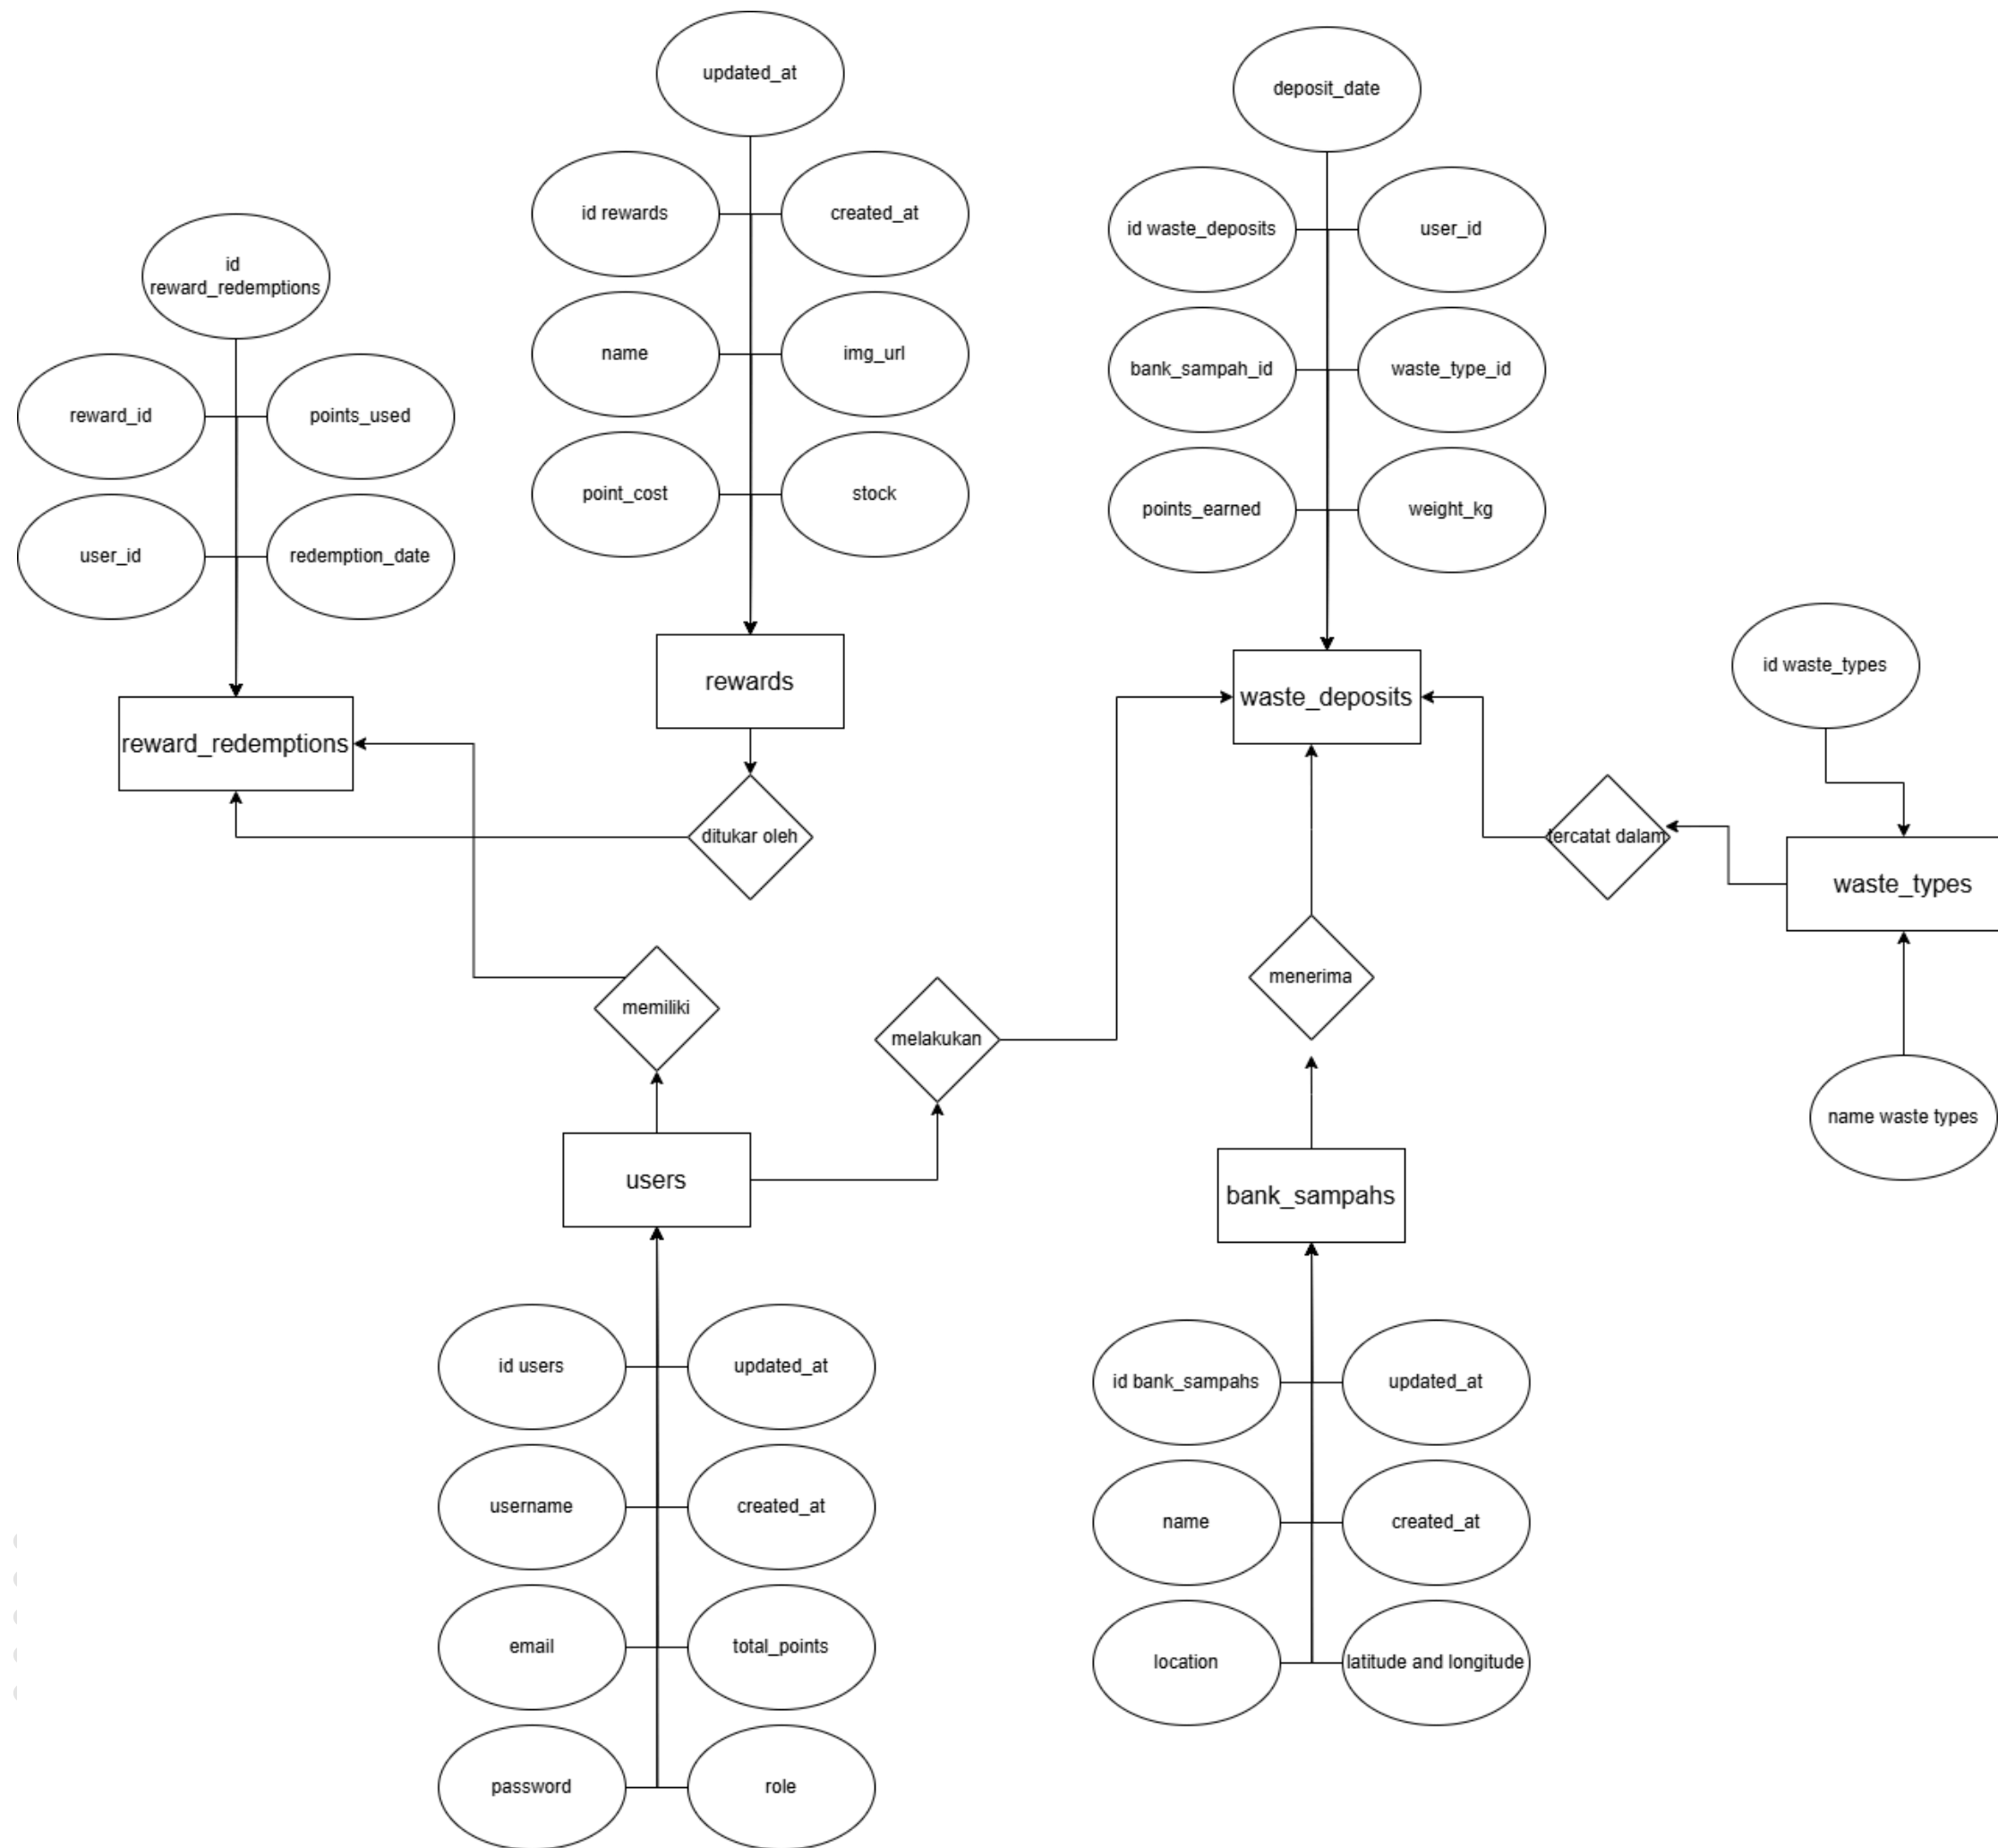

Features

- User registration, login, and password reset (with email verification)
- Deposit waste at registered Bank Sampah locations
- Earn points for each deposit
- Redeem points for rewards
- View deposit and redemption history
- Admin dashboard for managing users, rewards, and Bank Sampah
- Interactive map for finding Bank Sampah locations
